PURPOSE

The Participants agree to establish the “Association Trio” as a format of
enhanced cooperation and dialogue among the Ministries of Foreign
Affairs of three EU Associated Partners, as well as with the European
Union on matters of common interest related to the European
integration of their countries, including cooperation within the Eastern
Partnership.

The Participants express the aspirations of the “Association Trio”
countries towards the membership of the European Union and reaffirm
their commitments to further progress in the implementation of the
Association Agreements with the EU, which, however, do not constitute
the final goal of their relations with the EU.
In this context, they recall that pursuant to Article 49 TEU, as European states, Georgia, the Republic of Moldova and Ukraine have a European perspective and may apply to become a member of the European Union, provided that all necessary criteria for membership are adhered to.

**PARAGRAPH 2**

**SCOPE**

In accordance with the common interests of their European integration, the Participants will cooperate to enhance their political association and economic integration with the EU, as provided by the respective Association Agreements, and promoting new opportunities within the Eastern Partnership.

The Participants believe that the significant potential of further development of their states’ integration with the EU requires that the tools and areas of cooperation correspond to the needs and capabilities of the “Association Trio”, providing them with more opportunities of enhanced political dialogue, as well as greater economic and sectoral integration.

The Participants are confident that the process of their European integration will further benefit from the incentive-based approach (“more for more”) aimed to set progressive benchmarks of the integration process and provide for tangible achievements for their societies.

The Participants’ contribution to the cooperation within the Eastern Partnership will be without prejudice to their bilateral cooperation with the EU in line with their European aspirations.

The Participants underline the importance of EU support to the Partners’ sovereignty and territorial integrity within their internationally recognized borders, as well as to strengthening their resilience and countering the security challenges. The Participants will continue working towards strengthening the EU’s role in advancing peaceful resolution of conflicts within relevant formats and platforms.

Taking into account ambitious and complex European-oriented reform agenda of the “Association Trio” states, the Participants recognize the crucial role of the EU assistance, in particular through dedicated financial instruments, corresponding to the level of their commitments and goals and in line with the principle of conditionality in relation to the progress in reforms.

Being guided by the goal of deepening their European integration process as well as willing to ensure further strategic development of the Eastern Partnership the Participants agreed to promote jointly in the dialogue with the EU institutions and EU Members States the following objectives:
• Expanding the agenda of the dialogues between European Commission and "Association Trio", in addition to the DCFTA-related issues, to new thematic areas for enhanced cooperation, such as transport, energy, digital transformation, green economy, justice and home affairs, strategic communications, healthcare;
